†The population of Pondicherry for 1951 has been assumed to be the same as in 1948 when a census was taken by the French Government.

NOTE.—Owing to the adoption of different definitions in the 1961 census for urban areas, the number of urban areas in the census is different from that in force in the 1951 census. The figures for 1951 and 1961, therefore, are not strictly comparable.

**Includes cereals, pulses, oilseeds, fibres, plantation crops, sugarcane (gur), tobacco, potato, pepper (black), chillies (dry) and ginger (dry).

NOTES.—1. The indices for 1964-65 to 1966-67 are generally based on Partially Revised Estimates while those for 1967-68 are generally based on Final Estimates. The indices for these years are, therefore, subject to revision.

2. Figures given above relate to Agricultural Year (July-June).

3. Owing to progressive increase in coverages and changes in methods of yield estimation the actual production figures in respect of foodgrains and sugarcane (gur) as given in Table Nos. 2.1, 2.2 and 2.3 are not comparable over time. For comparison of all-India position over time, index numbers of agricultural production as given in this Table may be used with a view to enabling trend studies.

NOTES.—1. Production of rice is in terms of cleaned rice.

2. Production figures relate to Agricultural year (July-June).

3. Production figures for the latest two years are comparable, while those for the earlier years are not strictly comparable due to changes in coverage and methods of estimation. For comparison of all-India position overtime, index numbers given in Table No. 2 should be used.

(a) Included under Punjab.

(b) Relates to set-up before 1-11-66.

NOTES.—(1) Production figures in respect of sugarcane (in terms of gur), Groundnut, Sesamum, Rapeseed & Mustard relate to Agricultural year (July-June). Production figures in respect of Sugar relate to Sugar year (October-September) for 1965-66 to 1967-68 and to (Nov.-Oct.) for earlier years.

(2) Production figures in respect of Sugarcane (in terms of Gur), Groundnut, Sesamum and Rapeseed & Mustard for the latest two years are comparable, while those of earlier years are not strictly comparable due to changes in coverage and method of estimation. For comparison of all-India position over time, index number given in Table 2 should be used.

(3) Please see Appendix V for the years with effect from which the estimates of production in different States or regions thereof are based on the results of random sampling crop-cutting surveys.

(4) Estimates of Sugar production have been furnished by the Directorate of Sugar and Vanaspathi, Government of India.

(5) Production of Groundnut is in terms of "nuts in shell".

NOTES.—

- (1) In December, 1954, the Government of India announced that in view of the fall in the prices of some foodgrains to unduly low levels in some isolated areas, they would be prepared to purchase from cultivators as a measure of relief, jowar at Rs. 5.50 per maund or Rs. 14.74 per quintal, bajra at Rs. 6.00 per maund or Rs. 16.06 per quintal and maize at Rs. 5.50 per maund or Rs. 14.74 per quintal at certain specified mandis where the prices fell below these levels. The policy of limited price support was extended to wheat in March, 1955, when the Government announced that they would make purchases of F.A.Q. wheat at rail-head mandis at Rs. 10.00 per maund or Rs. 26.80 per quintal where its price fell below that level. In June, 1955, a minimum purchase price of Rs. 6.00 per maund or Rs. 16.06 per quintal was announced for gram, the machinery for the purchase of gram being the same as that for wheat. In August, 1955 the Government announced its decision to make purchases of coarse rice, as a measure of price support at selected mandis if the price of that quality fell below Rs. 11.00 per maund or Rs. 29.47 per quintal.
- (2) The limited price support policy for jowar, bajra and maize was extended in September, 1955 to the 1955-56 Kharif crop when the Government of India announced the same minimum prices for these grains as were in force in 1954-55.
- (3) No purchases of bajra and coarse rice were made during 1955 as the market prices of these cereals did not fall below the minimum prices announced by the Government.
- (4) No purchases of cereals were made during 1956 on Government of India's account. A quantity of 20,847 tonnes of rice and 1,588 tonnes of paddy was, however, purchased through trade on Jammu & Kashmir Government's account and despatched direct to Pathankot.
- (5) In pursuance of their policy to assure a reasonable price to the cultivator for his produce, the Government of India introduced in March, 1962, a scheme to give support to the prices of wheat in the event of their going down to uneconomic levels. The following minimum prices of wheat were fixed :

TABLE No. 6—contd.

Variety	(In Rs.)	
	Prices for fair average quality	
	Per maund	Per quintal
Red wheat	12.00	32.15
Common white variety	13.00	34.83
Superior farm variety	14.00	37.51

Purchasing agents were appointed in mandis where the State Governments considered that there was a likelihood of the prices of wheat falling below the support prices. Prices of wheat, however, stabilised at suitable levels very soon after the harvest and it was not necessary for the Government of India to purchase any large quantity of wheat.

- (6) For rice, it was decided not to fix any minimum support price. Wherever Government procurement of rice was in operation, the procurement prices acted as support prices. In other States, the State Governments were advised to purchase the common white varieties of rice at prices fixed during the 1958-59 season if prices in any area tended to fall below those levels after the harvest. It was expected that if the prices of common white varieties of rice stabilised at suitable levels, the prices of other varieties would also stabilise at comparable levels.
- (7) For the 1963-64 wheat season, it was decided to make purchases of wheat as a measure of price support in major wheat producing States viz., Madhya Pradesh, Uttar Pradesh, Punjab and Rajasthan. It was arranged with the Governments of the above four States that they would purchase wheat on behalf of the Central Government as and when prices of any quality of wheat touched or fell below the minimum level fixed by the Government of India anywhere in the States. The following support prices were announced on 26th April, 1963 :

(In Rs.)

Variety	Prices for fair average quality	
	Per maund	Per quintal
Red wheat	13.00	34.83
Common white variety	14.00	37.51
Superior farm variety	15.00	40.19

- (8) In December, 1962, the price support scheme was extended to rice. In the States where Government were procuring rice, the procurement prices acted as support prices. In other States the State Governments were advised to purchase common white varieties of rice of fair average quality at prices ranging between Rs. 40.19 and Rs. 44.21 per quintal (Rs. 15.00 & Rs. 16.50 per maund) if the prices of rice tended to fall below these levels. It was expected that if the prices of common white varieties of rice stabilised at suitable levels, the prices of other varieties would also stabilise at comparable levels. In view of the decline in production of rice during 1962-63, the prices of rice ruled at higher levels and there was no actual purchase of rice as a price support measure.

- (9) No minimum prices for paddy were fixed for 1962-63 season as it was expected that by giving support to the prices of rice, the prices of paddy would automatically stabilise at suitable levels.

- (10) For the 1963-64 season, the price support scheme has been extended to jowar and the following support prices have been fixed :

(In Rs.)

Crop/Variety	Prices for fair average quality	
	Per maund	Per quintal
Jowar, White	9.00	24.12
Jowar, Yellow	8.50	22.78

As jowar is produced mainly for local consumption and inter-State movement of this grain is very small the Governments of major jowar producing States have been advised to purchase jowar under their own arrangements and to make suitable arrangements for its storage and subsequent disposal. They have also been requested to utilise the agency of co-operatives to the extent feasible. No purchases of jowar have, however, been made under this scheme.

- (11) For all-India Minimum Support Prices for subsequent seasons, please refer to Table No. 10.2.

.. Nil or negligible.

In case of maritime States comprising two or more Trade Blocks, the totals have been arrived at by excluding the inland trade between constituent Trade Blocks. The figures shown against Grand Total (with mark) are based on such totals.

Notes.—1. Figures in brackets indicate rice equivalents of paddy (rice in the husk). These figures have been taken into account in arriving at the total movement (imports and exports) of cereals for a particular Trade Block.

2. Table relates to movement by rail and river.

NOTE.—Minimum sugarcane prices during 1967-68 and 1968-69 were fixed by the Govt. of India vide following notifications :

1967-68 G.S.R. 1477/ESS. COM/Sugarcane dated 25-9-67.

1968-69 G.S.R. 1813/ESS. COM/Sugarcane dated 4-10-68.

For the season 1967-68, the minimum price of sugarcane was revised from Rs. 5.68 per quintal to Rs. 7.37 per quintal. The linkage with recovery at 9.4% was maintained, but the premium for higher recoveries was raised from 4 paise per quintal to 5.36 paise per quintal for every increase of 0.1% in recovery above 9.4%. The minimum price for sugarcane delivered at the cane purchasing Centre connected by rail was 32 paise per quintal less than the price fixed for delivery at the factory gate. Similarly a rebate at the rate of 2.5 paise per quintal per kilometre was allowed to be deducted from the cane price in the case of sugarcane delivered at the cane purchasing centre connected by road if such cane was transported by the sugar factory at its own cost. This rebate was also subject to a maximum of 32 paise per quintal. The Govt. of India have decided that no change will be made in the minimum price of sugarcane during the crushing year 1968-69.

*The old series was discontinued with effect from October, 1965.

NOTES.—1. Indices with 1951=100 as base have been obtained from the original series (with 1949=100 in the case of all-India, July 1933 to June 1934=100 in the case of Bombay and July 1935 to June 1936=100 in the case of Madras City) by arithmetic conversion.

2. For consumer indices of industrial workers according to the new series with 1960=100 as base, please see Table No. 10-11.

* Provisional and subject to revision.

1 kg. per year = 0.09664 oz. per day.

Notes.—(1) Population figures are based on the latest projections made by the Expert Committee set up by the Planning Commission. The figures of per capita availability have therefore been revised accordingly.

(2) Production figures relate to Agricultural year (July-June); 1951 figure corresponds to the production 1950-51, and so on for subsequent years. Net production has been taken as 87.5% of gross production in respect of cereals and pulses; the percentage used in respect of rice, wheat and gram are 92.4, 87.9 and 77.9 respectively, balance being provided for feed, seed requirements and wastage.

(3) Figures relating to net imports have been arrived at by deducting the gross exports from gross imports.

(4) Figures relating to change-in-stocks represent a net increase or decrease in stocks at the end of the calendar year. The plus sign represents an increase in stocks and the minus sign represents decrease in stocks during a particular year. The figures of stocks relate to total stocks both with State Governments and Central Government. Stocks held by traders and producers are not known.

@Includes refined sugar manufactured in India from imported raw sugar.

** Includes sugar despatches to Nepal & Sikkim.

††Includes sugar despatches to Nepal, Sikkim, Bhutan, Nagaland and to Defence Authorities.

Notes.—1. Population figures relate to mid-year estimate, as framed by the Expert Committee set up by the Planning Commission. These estimates have been framed by the office of Registrar General of India.

2. Upto 1960, the production, imports, exports and change in stocks figures relate to November to October and from 1961 onwards these relate to October to September. Figures for 1951 correspond to the production in 1950-51 and so on for subsequent years. Figures of production, imports, exports and stocks utilised above have been supplied by the Dte. of S. & V.

3. Figures relating to change in stocks represent a net increase or decrease in stocks at the end of the year. The plus sign represents an increase in stocks and the minus sign signifies a decrease in stocks during a particular year.

4. The estimates of net availability are calculated as : Production + Imports — Exports (—)(±) change in stocks.

Neg.—Negligible.

NOTES.—(1) Population figures relate to mid-year estimates. These estimates have been framed by the Expert Committee set up by the Planning Commission.

(2) Production, imports and exports of fish figures given above relate to calendar year. These figures have been obtained from the Fisheries Development Section of the Department of Agriculture, Government of India.

(3) Net production has been taken as 90.2% of the gross production, 9.8% being provided for wastage.

(4) The estimates of net availability are calculated as:
Net availability = Net production + Imports — Exports.

****As furnished by the Reserve Bank of India.**

Figures relate to mid-year estimates. These estimates have been framed by the Expert Committee set up by the Planning Commission.

figures for 1961 correspond to 1960-61 and so on for subsequent years. The implicit estimates of population exclude the population of Goa, Daman & Diu and Pondicherry in 1962.

Figures are based on Revised Series; 1951 figures correspond to last Friday of the financial year 1950-51, and so on for subsequent years.

41952 figures correspond to 1951-52, and so on for subsequent years.

^aIndices with 1950-51 = 100 have been obtained from the original series with 1952-53 = 100 by arithmetic conversion; indices prior to 1953-54 relate to "Derived series". In the case of "Foodgrains", index has been worked out by combining cereals and pulses groups by weighted average, "Agricultural Commodities" group has also been arrived at by the weighted average of indices of individual agricultural commodities published by Office of Economic Adviser, Government of India.

of indices with 1951 = 100 have been obtained from original series with 1949 = 100 in the case of all-India, July 1933 to June 1934 = 100 in the case of Bombay and July 1935 to June 1936 = 100 in the case of Madras City by arithmetic conversion.

Figures relate to Agricultural year July-June; 1951 figures correspond to 1950-51, and so on for subsequent years, indices with 1950-51 = 100 have been obtained from the original series with 1949-50 = 100 by arithmetic conversion.

indices with 1951 = 100 have been obtained from the revised series 1960 = 100 by arithmetic conversion.

- Indices with 1991 = 100
- Relate to actual imports.

NOTE.—Figures in brackets indicate Index Numbers.

APPENDIX III

Systems of Procurement of Foodgrains

Procurement of foodgrains is a State subject and it is for the States to decide about the systems of procurement keeping in view the local conditions. The main crops in India are rice (Kharif) and wheat (Rabi).

I. The systems of procurement in respect of paddy/rice in the various rice producing States are given below :—

Andhra Pradesh

- (a) Graded levy on producers.
- (b) Percentage levy on rice mills.
- (c) Open market purchases.

The F.C.I. is entrusted with the task of procurement as an agent of the Government.

Assam

Monopoly purchase—purchases are made at maximum controlled prices. The procurement is done through the Apex Co-operative Marketing Society as well as the Food Corporation of India.

Bihar

- (a) Levy on producers on an acreage basis except from unirrigated land in scarcity districts.
- (b) Levy on rice millers/hullers—25% of rice milled/hulled on miller's account.

Gujarat

Graded levy on producers. The procurement is to be done through the agency of the District Co-operative Purchase and Sale Unions.

Haryana

Levy on millers/dealers. The percentage of levy is 90% and the purchases are made at procurement prices fixed by the State Government.

Kerala

Graded levy on producers.

Madhya Pradesh

Levy on rice millers/hullers—percentage of levy 60. Under the Levy Order F.C.I. are purchase officers for all licensed millers/dealers other than those rice mills run by Co-operative Societies. For mills run by registered Co-operative Societies the State Government have been authorised to appoint any authority as 'Purchase Officer'.

Madras

Procurement of paddy through *ad hoc* requisitioning of stocks under a Declaration and Requisitioning of Stocks Order.

The purchases are made at the maximum controlled prices. The F.C.I., the Co-operatives are acting as agents of procurement.

Maharashtra

- (a) Monopoly procurement of paddy.
- (b) 100% levy on millers.

Purchases are made through the Maharashtra Apex Co-operative Marketing Society at prices specially fixed by the State Government for purpose of procurement.

Mysore

Graded levy on producers on acreage basis. Procurement is done solely through Co-operatives at prices specially fixed by the State Government.

Orissa

Monopoly procurement. Purchases are made through the F.C.I. who are acting as sole agents of the State Government.

Punjab

Levy on millers/dealers—82% levy. Purchases are made at maximum controlled prices fixed by the State Government.

Uttar Pradesh

Levy on millers/dealers, at 60%.

West Bengal

- (a) Graded levy on producers.
- (b) Levy on rice millers—50% with effect from 1-11-68.

II. The systems of procurement in respect of rabi foodgrains during the 1968-69 marketing season followed by the concerned States are indicated below :

Haryana

System of pre-emption in the auction in the regulated markets. The State Government is the main procuring agency.

Madhya Pradesh

Levy on foodgrains dealers—50%.

Punjab

System of pre-emption in the auction in the regulated markets.

The State Government, F.C.I. and the State Marketing Federation are the procuring agencies.

Rajasthan

System of pre-emption in auction in the markets of the State.

Uttar Pradesh

Open market purchases.

The F.C.I. has been allowed to operate in most of the important mandies.

APPENDIX IV

Reserve Bank Directives regarding Control of Credit against Foodgrains, Sugar, Gur, Oilseeds and Vegetable Oils (including Vanaspati)

I. Against Foodgrains

During the year 1968, the Reserve Bank of India continued to regulate bank advances with a view to curbing speculative hoarding of foodgrains as also to facilitate procurement operation of foodgrains. According to the directive issued by Reserve Bank of India, Bombay on 13-4-67, the ceiling of average aggregate level of credit against the Security of rice and paddy was continued at 55 per cent of the average level of credit in the corresponding two month period in 1964-65 in the case of Andhra Pradesh and at 65 per cent in the case of other States (taken together except Andhra Pradesh and Maharashtra). In the case of Maharashtra the ceiling limit was continued at 50 per cent of the average aggregate level of credit maintained in the corresponding two month period in the year 1964-65. The minimum margin of 50 per cent prescribed for advances against rice and paddy and the preferential margin of 40 per cent in respect of advances against warehouse receipts of the Central and State Warehousing Corporations were also continued.

In view of the fall in prices of paddy and rice in the districts of north Bihar and West Bengal, the Reserve Bank of India exempted the rice mills located in certain districts of north Bihar through its directive dated 18-12-68 and the rice mills located in West Bengal through its directive dated 15-1-69 from the purview of ceiling and margin restrictions stipulated under its directive of April, 1967.

In view of the comfortable supply position in respect of wheat during 1967-68 and the subsequent fall in prices, the Reserve Bank of India decided to relax its Control on advances against wheat under the directive dated 7-8-68. In terms of this directive, the ceiling on bank's advances against wheat during each two-month period commencing from August-September, 1967 has been fixed at 110 per cent of the outstanding level in 1967 or 100 per cent of the outstanding level in 1964-65 (August-July) whichever is higher and this ceiling limit has been fixed separately for (a) States of Punjab, Haryana, Jammu & Kashmir, Himachal Pradesh and Union Territories of Delhi and Chandigarh and (b) all other States and Union Territories taken together. The minimum margin has also been reduced from 50 per cent to 35 per cent in the case of advances other than warehouse advances and from 40 per cent to 25 per cent in respect of advances against warehouse receipts.

In the case of "other foodgrains" i.e. other than paddy, rice and wheat, the credit restrictions were relaxed by the Reserve Bank of India through its directive dated 27-5-68. According to this directive the ceiling of a bank's advances against "other foodgrains" has been fixed at 100 per cent of the outstanding level in 1967 or 100 per cent of the outstanding level in 1964-65 (May-April) whichever is higher separately for Maharashtra, Madhya Pradesh, Uttar Pradesh and group of other States taken together. The minimum margin has also been reduced from 50 per cent to 35 per cent in the case of non-warehouse advances and from 40 per cent to 25 per cent in the case of warehouse advances.

II. Against Sugar

On 27th April, 1963, the Reserve Bank issued a directive whereby the banks are required to maintain minimum margin requirement at 45 per cent of the value of the stocks of sugar to (a) parties other than those manufacturing sugar and (b) parties manufacturing sugar in respect of such stocks as have left the factory or mills premises and in which excise duty has been paid.

III. Against Gur

The advances against gur were brought within the purview of credit control for the first time under a directive issued on 2-11-67. In terms of this directive, the banks are required to maintain in each two-month period commencing from November-December, 1967 an average aggregate level of credit which is not to exceed 70 per cent of the level of such advances actually maintained in the corresponding two-month period of 1966-67. The minimum margin has been fixed at 50 per cent of the value of the relative stocks of gur pledged/hypothecated with banks.

IV. Against Groundnuts, Other Oilseeds (other than groundnuts, gingelly seeds and cotton seeds) and Vegetable Oils (incl. vanaspati)

Groundnuts.—In terms of the directive issued on 8-11-68, the margin requirement on advances against groundnuts has been fixed at 45 per cent in the case of parties other than registered oil mills, the margin in respect of which has been fixed at 35 per cent. The ceiling limit on advances against groundnuts has been continued at 100 per cent of the actual level of credit maintained in the year 1967 separately for warehouse and non-warehouse advances.

Other Oilseeds.—At present, the advances against other oilseeds are governed under the directive issued by the Reserve Bank of India on 8-11-68. In terms of this directive, the minimum margin on advances against other oilseeds has been fixed at 45 per cent in the case of parties other than registered oil mills. In the case of registered oil mills, the margin has been fixed at 35 per cent. The ceiling limit on advances against 'other oilseeds' has been continued at 100 per cent of the actual level of credit maintained in the year 1967 separately for warehouse and non-warehouse advances.

Vegetable Oils (including vanaspati).—In terms of the directive issued on 8-11-68, the margin requirement on advances against vegetable oils (including vanaspati) has been fixed at 45 per cent to parties other than vanaspati manufacturers and registered oil mills. In the case of vanaspati manufacturers and registered oil mills, the margin has been fixed at 35 per cent. The ceiling limit on advances against vegetable oils has been continued at 100 per cent of the actual level of advances maintained in the corresponding period of 1967 separately in respect of (a) vanaspati manufacturers and registered oil mills and (b) others.

APPENDIX VII

The following Arrangements/Agreements were concluded in 1968 for import of foodgrains in so far as Import I & II Sections are concerned :—

WHEAT

1. U.S.A.

- (i) P.L. 480.—A supplementary agreement between the Government of U.S.A. and the Government of India was signed at New Delhi on the 23-12-68 under P.L. 480 agreement dated 20-2-67 for 2.3 million metric tons of wheat/wheat flour.
- (ii) Commercial Purchases.—The following commercial purchases of wheat were made from U.S.A. in 1968 :—

July, 1968	108.70 thousand metric tons.
October, 1968	99.90 thousand metric tons.

2. Canada

- (i) Gift.—(a) An amount of Canadian \$40 million for food gift was provided by the Government of Canada under the Canadian International Food Aid Programme. Against this aid, Agreements were signed on 19-3-68 and 7-6-68, with the Canadian Wheat Board, Winnipeg for Canadian \$=20 million each, which fetched a total of about 525.9 thousand metric tons of wheat.
- (b) A further amount of Canadian \$30 million for food gift was provided by the Government of Canada. The amount has been given in advance and this would be adjusted against their food aid programme for the year 1969-70. Against this aid an agreement was signed on 27-12-69 with the Canadian Wheat Board, Winnipeg for Canadian \$28,823,053.75 for approximately 370,000 long tons of wheat under the Canadian International Development Agency Programme. A further 16,000 tons were directly allocated by the Canadian Government.
- (ii) Commercial Purchases.—The following commercial purchases of wheat were made from Canada in 1968 :—

April, 1968	35.4 thousand metric tons.
June, 1968	69.0 thousand metric tons.

3. Australia

- (i) Gift.—The Government of Australia offered a gift of 70.0 thousand metric tons of wheat under the Food Aid Convention of the I.G.A. 1967. For this, letters were exchanged with the High Commission for Australia, New Delhi on 18-10-68.
- (ii) Commercial Purchase.—Contract was signed on 5-1-68 for the purchase of a total quantity of 106.5 thousand metric tons of Australian wheat. Payment for this commercial purchase was to be spread over one year period.

4. U. K.

- Gift.—The Government of the United Kingdom agreed to give to India food aid under the Food Aid Convention of the I.G.A. 1967 to the extent of 2.7 million pound sterling. A quantity of 1,12,500 metric tons of wheat has been purchased against this aid with our own funds, to be re-imbursed later by the Government of the United Kingdom.

5. Argentina

- Gift.—The Government of Argentina has given a free gift of 5,000 metric tons of wheat.

RICE

- (1) An Agreement was signed on 5-3-68 for the purchase of 40 thousand metric tons of rice from the U.A.R.
- (2) An Agreement was signed on 7-3-68 for the purchase of 100 thousand long tons of rice (101.6 thousand metric tons) from Burma.
- (3) An Agreement was signed on 18-6-68 for the purchase of 80 thousand metric tons of rice from Thailand.
- (4) An Agreement was signed on 23-7-68 for the purchase of 40 thousand metric tons of rice from Thailand.
- (5) A quantity of 1.9 thousand metric tons of rice was purchased from Burma through exchange of letters dated 6-9-68.
- (6) A quantity of about 151 thousand metric tons of rice was purchased from private parties during the period December, 1967 to December, 1968.
